

**Silcadur AW** is an acid containing release paste which can dissolve aluminium residue on die casting moulds

#### Properties

- Excellent release and metal flow
- Bright casting surfaces if applied sparingly
- Outstanding cosmetics with no carbon build-up
- Fast wetting
- High temperature resistance

#### Typical Area of Application

- Release paste for aluminium die castings

#### Recommendations for Processing

- To be sparingly applied by brush onto critical parts on the die casting moulds

#### Technical Data

- Colour: Black
- Carrier: Mineral Oil
- Density: 0.90g/cm<sup>3</sup>
- Ph-Value: N/A
- Viscosity at 25°C: N/A
- Appearance: Pasty
- Odour: Typically

#### Storage and Safety

- Store in original packaging and appropriate dry conditions, and protect from frost.
- Additional information is available on the Material Safety Data Sheet

These products are subject to continuous strict production controls and comply with our own factory specifications. A warranty for each case cannot be give, due to the variety of relevant factors. Therefore, we recommend the implementation of field tests. Herewith, any liability is expressly excluded.
